

Carbon Reduction Plan

Supplier name: Innotec Hygiene Solutions Ltd

Publication date: July 2025

Commitment to achieving Net Zero

Innotec Hygiene Solutions Ltd is committed to achieving Net Zero emissions by 2050. We will keep this date under review, bringing it forward if possible as our carbon reduction plans develop.

Baseline Emissions Footprint

Baseline Year: 2024/25 (1 April 2024 – 31 March 2025)		
Baseline year emissions (tCO ₂ e):		
Scope 1	0.0	
Scope 2	0.0	
Scope 3	12.6	
Included Scope 3 categories	4. Upstream transportation & distribution	9.1
	5. Waste generated in operations	0.0003
	6. Business travel	2.5
	7. Employee commuting	1.0
	9. Downstream transportation & distribution	0.0
Total Emissions	12.6	

Current Year Emissions Footprint

Current Year: 2024/25 (1 April 2024 – 31 March 2025)		
Current year emissions (tCO ₂ e):		
Scope 1	0.0	
Scope 2	0.0	
Scope 3	12.6	
Included Scope 3 categories	4.Upstream transportation & distribution	9.1
	5. Waste generated in operations	0.0003
	6. Business travel	2.5
	7. Employee commuting	1.0
	9. Downstream transportation & distribution	0.0
Total Emissions	12.6	

Emissions reduction targets

The business is committed to achieving Net Zero emissions by 2050 at the latest. We will keep this date under review, bringing it forward if possible as our carbon reduction plans develop. We will expand the scope of our carbon foot printing over time, as data and resources allow. This will include emissions from the supply chain for our products. We will undertake a process of engagement with suppliers to start gathering the necessary data.

We will consider setting nearer-term targets for carbon reduction and will pay particularly close attention to the carbon intensity of the business so that any continued growth in the business is as carbon lean as possible.

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed:

- Products are shipped by land and sea, with measures in place to ensure that air freight is only used in exceptional circumstances.
- The business has an Environmental Management System in place.
- The business achieved Green Small Business Certification in July 2025, having developed an environmental policy and comprehensive action plan addressing all of the significant environmental impacts of the business

Planned Carbon Reduction Initiatives

Our environmental action plan commits us to the implementation of further measures which we anticipate will reduce the carbon intensity of the business, such as:

- Engage our suppliers and sub-contractors on monitoring and improving carbon and environmental management processes.

- Engage with storage provider on deep green energy tariffs and energy efficiency actions.
- Ensuring environmentally responsible purchasing.

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting².

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard³.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of the Supplier:
